(UX) Design
Google UX Design Specialization

Christian R. Orozco

UX | UI Designer

West Palm Beach, Florida, United States

Summary

I entered the field of UX through the Google UX Design Certificate course. In this course I learned about the philosophy behind UX design such as identifying implicit bias, the importance of empathy in design, and keeping an inclusive mind frame. Through this course I was able to develop projects from conception to delivery using both Figma and Adobe Xd. The development of these projects involved iterating on designs, conducting usability studies, doing research through competitive audits, and developing wireframes and prototypes. Prior to UX in my Addictions Counselor experience I honed my abilities in assessing clients, determining a service accordingly, and developing a firm foundation of empathy.

Experience

Google Career Certificates

UX Designer

July 2022 - October 2022 (4 months)

United States

- Conducted usability studies
- Iterated on designs
- Designed two versions for a responsive project
